The screenshot shows the KIE IDE interface for managing process instances. The top navigation bar includes the KIE IDE logo, a home icon, a menu, and a user profile for 'admin'. The main content area is titled 'Manage Process Instances' and features a 'Process Instances' dropdown menu and a 'New Process Instance' button. A filter bar shows 'Active filters: State: Active'. Below this is a table with columns: Id, Name, Description, Version, Last update, Errors, and Actions. One instance is listed with Id 2, Name Evaluation, Description Evaluation, Version 1, Last update 02-Aug-2018 15:15:08, and 0 errors. The table shows 10 items. On the left, a 'Filters' sidebar allows filtering by State (Active, Aborted, Completed, Pending, Suspended), Errors (With errors, Without errors), and other criteria like Id, Name, Start Date, and Last update.
