About This Content

GERMAN COMMANDER: FORTIFIED ARMOR DOCTRINE

Your vehicles can live longer and fight harder with better vision, recon, defensive options and the presence of a Command Tank.

- **ELEFANT TANK DESTROYER**

This heavy tank destroyer has a massive armor envelope and one of the most potent guns ever mounted on a fighting vehicle; the 88mm Pak43. Weighing 65 tons, the Elefant's weakness is maneuverability.

- **COMMAND TANK**

A command tank that can improve nearby armored forces can be ordered from Support Armor Korps.

- **HULL DOWN**

Pioneers, Grenadiers and Panzer Grenadiers are able to set German armor in an immobile Hull Down position, increasing defense, accuracy and reducing reload times.

- **RECONNAISSANCE OVERFLIGHT**

Available aircraft will make a reconnaissance pass on the targeted location to reveal enemy forces.

- **PANZER TACTICIAN**

All armored vehicles use their equipped smoke dischargers to prevent themselves from being seen.

This DLC is already included in the Digital Collector's Edition.
